Premium jewellery boxes feature a non-tarnishing jewelers cotton and heavy cardboard construction. Premium jewellery boxes are made for your quality jewelry pieces. A little known secret here at WR Display & Packaging is that the tops and bottoms of our paper jewellery boxes are all interchangeable, allowing you to create a two tone coloured jewelry box packaging! What a look you could make! All you have to do is buy two colors of jewellery boxes in the same size. Wrap all this up with any one of our luxurious ribbons, and your customer will get a package they will never forget! Price Right jewellery boxes contain a simple cotton fill.

Shipping and E-comm Boxes

Shipping Boxes Canada. A corrugated shipping box is a type of cardboard box that is commonly used for shipping and storing products. It is made from multiple layers of paperboard that are sandwiched together to create a strong, durable material. The fluted layer of paperboard, which gives the box its distinctive corrugated appearance, provides extra strength and cushioning to protect the contents of the box during transit. Our Corrugated boxes are made in Canada, and they are the exact ones that we use for shipping our items out to you. We know you're into shipping too, so take advantage of our great line of corrugated boxes. An E-comm box is tailor made for shipping your small packages safely.

Boxes - In Canada, we have a box for everything! Shipping boxes, garment boxes, giftware boxes, and jewellery boxes. We just have too many boxes to count! Upscale your product by providing a box. A box for your product shows a customer that you care. It's a simple thing, it doesn't have to be fancy, but what a box does for your product is enhances it, makes it presentable, builds anticipation for the recipient, and gives you a place to put your logo or some other decoration to brand your product.
